The Peace Science Society

The Peace Science Society (International), or PSS(I), is an association for the advancement of peace and conflict research. The Society operates as an objective, professional, and scholarly organization without political, ideological, financial, or national bias. PSS(I) is not confined to a particular academic discipline, but welcomes and utilizes relevant work across the social and natural sciences. Moreover, the Society is committed to promoting work that utilizes rigorous scientific methods and analyses on the causes of conflict and the promotion of peace. PSS(I) facilitates acquaintance and provides a vehicle for discussion among its members worldwide. It encourages and supports the publication of research, particularly, but not exclusively, quantitative research. PSS(I) does not promote direct political action or polemical discussion.
